

**A RESOLUTION TO RESTORE PARENTAL RIGHTS AND AUTHORITY**

Legislative Background for Senate Resolution 19-

“The Legislature finds and declares that all children and youth, regardless of gender, class, race, ethnicity, national origin, culture, religion, immigration status, sexual orientation, or ability, have inherent rights that entitle them to protection, special care, and assistance, including, but not limited to, the following: The right to parents, guardians, or caregivers who act in their best interest. The right to form healthy attachments with adults responsible for their care and well-being. The right to live in a safe and healthy environment. The right to social and emotional well-being. The right to opportunities to attain optimal cognitive, physical, and social development. The right to appropriate, quality education and life skills leading to self-sufficiency in adulthood. The right to appropriate, quality health care.” CA SB18

In SB18, a group is referred to: The Peninsula Partnership Leadership Council. This Council has already written a children’s bill of rights, and SB18 is saying this is the model. This is the framework. This is the pattern they’re following. The Peninsula Partnership Leadership Council (PPLC) is composed of the San Mateo County Superintendent of Schools, the County Board of Supervisors and the Silicon Valley Community Foundation. The SILICON VALLEY COMMUNITY FOUNDATION is a non-profit that has assets of \$7.3 BILLION. It runs 1800 philanthropic funds. Here are some of its corporate partners:

Alexza Pharmaceuticals. Microsoft. Pepsico Foundation. Cisco. Hewlett Packard. Dell. Symantec. Unilever. Plus something called the SV2 Silicon Valley Social Venture Fund, “building and scaling social inventions.”

This huge Foundation is pushing a children’s bill of rights that is reflected in a recent bill, SB18, that will eventually make the State the controlling force over all children in California. It is obvious that these corporate partners will reap enormous profits by creating this model framework. And beyond that, this is their version of a MASSIVE social engineering program. And that program is designed to usurp the traditional authority of the family through a technocratic movement to plan, format, and run the lives of the population from cradle to grave, because these hi-tech scientists and engineers know best.

It is New California’s declared determination to reverse the destructive progressive attack on the nuclear family through their education agenda currently adopted within the entire administrative state, and within the education curriculum as mandated in practice within the California state social services structure. This attack stems from the influential work and writings of dedicated collectivists (Marxists) who believe that statist control of the family is the only means to achieve their ideological ideals.

This progressive overthrow of the family through social justice and social engineering continues to permeate, not only our education system both in K-12 and the higher academies, but to manipulate around the family through the influence of an engineered agenda that has gained in momentum over the past century. Instead of equipping and enlisting parents to actively promote and equip children with the knowledge and skills that will make them effective and competitive in their life pursuits and social environment, the result of this agenda is to invert the primary reason for the existence of our public school system by advancing the collectivist goal of social conditioning, social justice activism and social engineering to reshape our society to the will, utopian vision and benefit of the state.

Our country's founders reverently believed and embraced the idea that "we hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness." They firmly embraced the idea that, given the liberty and freedom for each individual to improve and sustain their potential in these pursuits, the overall community would be the beneficiary of this endowment.

Our founders believed it was the responsibility of government to protect and safeguard the exercise of these rights, and to promote a secure environment that allows individuals to express their conscience and embrace those truths within any public domain, forum or setting, most especially in any public education institution where the exchange of ideas is primary to its goals. However, the progressive, post-modern collectivists running our education system today believe that the purpose of government is to indoctrinate future generations to reform society through social engineering within the school setting, while ostracizing and silencing conservative voices.

**NEW CALIFORNIA STATE  
SENATE RESOLUTION NO. 19-\_\_\_\_\_**

**A Resolution of the Senate of New California State \_\_\_\_\_**

**Whereas**, natural law and natural law's God has established the natural family; and

**Whereas**, children are placed under the authority of their parents; and

**Whereas**, children belong to their parents not to the state; and

**Whereas**, parents are responsible for the education and training of their children not the state; and

**Whereas**, parental authority is delegated authority and children are stewardships from nature's God to be raised in loving homes and directed into productive contributing members of society; and

**Whereas**, the authority of parents empowers them to act, decide, judge and set policies for the benefit and protection of their children; and

**Whereas**, the responsibility of parents includes setting boundaries and limits for the protection of their children until the child reaches the age of accountability; and

**Whereas**, the education system in California under SB18 and AB329 (which is now enshrined as law in Education Code 51930 and 51939) violates parental rights and usurps parental authority; and

**Whereas**, the comprehensive sex education program under California Healthy Act framework works to destroy parental involvement in the upbringing of their children; and

**Whereas**, the current education system undermines and destroys the basic fundamental foundation of our rights by including language in our laws, such as AB329 that prohibits any instruction that would include religious doctrine, including any moral notions that limit the bounds of behavior and personal conscience, as well as historical lessons of fact that would expose the corruptive effect of a socialistic radical narrative. As there are requirements to include discussions about sexuality, transgender feelings and issues, and sexual practices connected to those issues. This, as a consequence, forces parents who become aware of what is being taught in our schools, and must forcefully intercede between their children and the school, and thereby creates an atmosphere of interdiction and legal challenges at a cost to the parents.

**BE IT RESOLVED** by this joint resolution of the Senate and Assembly members of New California declare that in every public school parental rights and authority shall be restored and the classroom shall be returned to the original purpose of education and personal improvement and achievement, and shall abandon any emphasis of radical ideals that inhibit or diminish the role and rights of the family; and

**BE IT ALSO RESOLVED**, that we as the citizens of New California State, having endured the diminishment of parental rights and authority for the empowerment of the state, and have experienced the dissolution of the family and parental influence within the classroom through the overreaching administrative system and witnessing the revisionist attack upon our once proud republic via our public school system, give and sound out this clarion warning to the other states of the union that the old California Republic, which has been used as the experimental laboratory for a destructive agenda that aims to dismantle our republican form of government that they despise, shall no longer prevail.

**NOW THEREFORE, BE IT RESOLVED**

**ADOPTED** this \_\_\_\_\_ day of \_\_\_\_\_, 2019.

AYES: \_\_\_\_\_ (number of votes)

NOES:   0  

ABSTAIN:   0
