

## Legislative Background for Joint Resolution 19-

The U.S. Constitution of the United States of America is the supreme law of the land. Articles IV, V and VI embody concepts of federalism, describing the rights and responsibilities of state governments and the states in relationship to the federal government. The Constitution's first three words—*We the People*—affirm that the government of the United States exists to serve its citizens. The rights under Article VI, Section 4 of the United States Constitution guarantees to every state in the Union a republican form of government, and to protect each of them against invasion; and on application of the legislature, or the executive (when the legislature cannot be convened) against domestic violence.

The government of California, the current socialist governor and mono-party system along with local officials are following a coordinated design with the intent to actively engage in **acts of insurrection** against the U.S. Constitution. It is against these usurpations that the citizens of California are aggrieved and resolve to utilize the Constitutional remedies for such abuses.
